Health & Safety Representative Refresher

Duration

1 Day

Format

Face to Face/LVC

Pre-Requisites

Yes

Description

This one day HSR workshop will build on the learning you have already undertaken during your 3 year term and refresh your knowledge of legislation and hazard management.

We begin with a brief update on changes to legislation and its general requirements using case studies and the discussion these generate.

We will review the process for resolving issues using your organisation's system combined with your skill in making a case for positive change.

The issue resolution refresher will encompass the issuing of a Provisional Improvement Notice (PIN).

In addition to the above, hazard topics will be reviewed using case studies and each workshop group's needs.

Career Outcomes

This workshop forms the foundation for the remaining 9 days training of the 10 days to which you are entitled for your second term as an HSR. The additional 9 days will enable you to complete a Certificate IV in Work Health and Safety or other training negotiated with your PCBU. The Certificate IV in WHS can lead to obtaining a position as a Workplace Health and Safety professional.

Format

The training is delivered face-to-face in a classroom-based learning environment or Live Virtual Classrooms.

For each LVC, 2 x 90 minute sessions plus 1 x 60 minute session held on each training date scheduled.

For in-house/group bookings the course can be delivered at a client's premises.

Investment

\$396 (inc GST)

Inclusions:

- course learning materials
- assessments
- certification upon successful completion

For in-house/group bookings please contact us for a quote.
