

# Project Management Professional (PMP)<sup>®</sup> Certificate Course

ASC Training & Development has been a trusted provider of training services for the past 25 years. We deliver comprehensive training experiences that empower professionals to excel in their project management roles.

## PMI Authorised Training Partner

As an authorised training partner of the Project Management Institute (PMI), we embody a commitment to excellence and innovation in project management education.

This collaboration ensures that the training provided is not only of the highest quality but also closely aligned with PMI's global standards, including the Project Management Body of Knowledge (PMBOK<sup>®</sup> Guide).

Leveraging the latest in educational techniques and technology, ASC Training & Development offers a range of programs tailored to meet the needs of both new and experienced project managers, from foundational courses to advanced certifications, such as the Project Management Professional (PMP)<sup>®</sup> and Certified Associate in Project Management (CAPM)<sup>®</sup>.

As a participant, you can expect a learning experience that not only enhances your professional capabilities but also prepares you for the challenges of a rapidly evolving business environment.

## Project Management Professional (PMP)<sup>®</sup> Exam Preparation Course

The PMP (Project Management Professional) certification and exam preparation course is a comprehensive program designed to equip project practitioners with the knowledge and skills necessary to excel in the PMP certification exam and elevate their career in project management.

This course is ideal for current project managers looking to validate their experience, enhance their professional credibility, and demonstrate their ability to lead successful projects.

As the only locally based Authorised Training Partner for the Project Management Institute in South Australia, we are proud to offer this opportunity to our South Australian Community.

More information about the PMP is available at [www.pmi.org/certifications/project-management-pmp](http://www.pmi.org/certifications/project-management-pmp).

## Why undertake the PMP<sup>®</sup> Certification?

*The Earning Power: Project Management Salary Survey* conducted by the Project Management Institute (PMI) provides valuable insights into salary trends and opportunity that accompanies PMP<sup>®</sup> certification:

- **Global Standard and Credibility:** PMP-certified professionals gain professional credibility and open doors to a world of opportunities.
- **Increased Earning Potential:** On average, PMP-certified professionals in 40 countries make 16% more than their non-certified counterparts. In the U.S., this percentage increases to 32%.
- **Career Advancement:** Organisations worldwide recognise and seek PMP-certified professionals. Adding "PMP" behind your name enhances opens doors to better jobs and projects.
- **Global Community:** Becoming PMP-certified means joining a global community. You can network with industry experts, seek insights from peers, and find mentors who help you thrive.
- **Validation of Skills:** The PMP certification validates essential project management skills, at a time where the demand for skilled project managers increases
- **Industry Recognition:** PMP certification is widely recognised in the industry. It demonstrates your valuable experience in leading and directing projects, making you a sought-after professional.
- **Learning New Skills:** Preparing for the PMP exam exposes you to deep knowledge and best practices in project management. You'll learn valuable techniques and methodologies that enhance your effectiveness as a project leader.
- **Investment in Yourself:** Ultimately, investing in the PMP certification pays off. It not only boosts your earning potential but also provides a sense of accomplishment and professional growth.

## Testimonials from John's PMP® Exam Preparation Program

*"I have enrolled in a PMP preparation course back in 2015. Under his mentorship, John demonstrated a deep knowledge of his field and a natural ability to share his knowledge and expertise in a pleasant and comprehensible manner. Although our classes lasted for a few weeks only, I have learned from him more than I could ever expect. I strongly recommend John as a professional that you can learn a lot from him."*

*"I have worked and collaborated with John on multiple assignments since 2011. John is a brilliant project management training expert. He delivered various customised training programs in Project Management, Risk Management, Scheduling, Earned Value Management, and others that I have attended and directly benefited from or observed the delivery of such programs."*

*"I had two PMP courses with John and was very happy with the results that I got. He's very talented and skilled trainer. He uses different tools and techniques and always up to date with his knowledge. He has also great experience in project management which backups his training talent. I liked our discussions during these sessions because even though he was more experienced, but he was always open to listen to your ideas and thoughts. I highly recommend him!"*
