# Train the Trainer

## Duration

3 Day

## Format

Face to Face

## Description

Have you ever had to endure a dull and lifeless training session with a trainer who fails to connect with the participants? **This is not one of them!**

Would you like to learn how to deliver your own training session and make it fun, interesting and interactive?

If your answer is 'YES', then join us for a fast paced, highly interactive and engaging two day workshop where you will learn how to plan and present interactive and effective training sessions.

Motivation is critical to learning. There is no guaranteed way to motivate a person to learn, however if we can show the benefits of learning a new skill or knowledge, learning stops being a chore, and becomes interesting. This is one of the keys to motivating a person to learn. This involves careful planning, understanding the needs of your learner and providing immediate feedback to improve performance and recognise tasks well done.

We will teach you techniques to use in your own training sessions that you can apply immediately to connect with your audience.

## Format

You will receive two days of dynamic, practical, hands on instruction and on the third day, you will put what you have learnt into practice and deliver training to another participant or to a small group. Feedback will be provided to you by our highly qualified facilitator after your presentation.
